Adult

Senior

Geriatric

Pets, it's what we do, all kinds, all sizes, all ages. From welcoming in the 8-week old puppy to saying goodbye to old long friends, we are always here. With the growing population of ageing pets specialized care can be a challenge. It is of our greatest concern that when our senior citizens reside with us that they are of sound mind and body. At the end of their stay we want them to go out the door as happy as they came in.

To be certain that our senior+ guests, both dogs and cats, are in optimal health we do require Veterinary health certificates (or the form on the reverse of this page) for older pets new to our care or who have not been in our care for over 6 months. Health Certificates will need to be dated from the vet with-in two weeks of the scheduled check-in date. This will alert us to any medical conditions that may not have been diagnosed previously and give us a good guideline for their needs while in our care.

For our senior citizens we offer our Serenity Suites or Zen room for a noise and climate controlled environment, orthopedic cots, bedding and TLC to make

them comfortable. For pets with special care needs (i.e. medical conditions, injections, expired vaccinations, mobility issues, etc.) please consult Diamond Creek management prior to booking as a special accommodation fee may apply should your pet's needs exceed standard care procedures. These fees start at a base rate of \$40/dog or \$24/cat per pet per night (subject to change).

Please refer to the chart above for the standard ages at which we will be looking for this documentation, we will be using the "Geriatric" zone. Please get us this information along with all other forms for Retreat accommodations no later than two days' prior check-in so we can contact your veterinarian with any questions.

## Veterinary Clearance for Retreat Accommodations

Dear Veterinarian,

Please familiarize yourself with our policy in regards to accommodations for senior pets on the reverse of this page. If you are receiving this notice it is because one of your patients has an upcoming stay at Diamond Creek Pet Retreat and we want to be sure they are in optimal health and are able to enjoy their stay with us to the fullest. For your convenience, the form below can be used in place of a "Health Certificate." We thank you for your time in filling out this information so we can provide the highest quality care to the pets staying with us.

Sincerely,

Emily Perkins, Office Manager
